

## Health and Safety Policy Statement

The Directors and Senior Management Team at Go Plant are committed to continually improving our Health and Safety performance and management to prevent injury and ill health and to exceeding our applicable obligations.

The Health, Safety and Welfare of all Go Plant employees, our customers and the general public is integral to every part of our business and is more important than the work we do.

Management will be held accountable for:

- 1 Identifying any risks in the tasks we perform and reducing them to the lowest possibility by Risk Assessment.
- 2 Ensuring that Safe Systems of Work are provided and adhered to.
- 3 Reviewing Risk Assessments and Safe Systems of Work periodically and when otherwise necessary.
- 4 Ensuring that all staff are trained for all the tasks that they are asked to carry out.
- 5 Ensuring staff understand their role in health and safety, are aware of their responsibilities regarding working safely with others to avoid risks to themselves or others.
- 6 Encouraging participation and active co-operation of employees on matters of health and safety.
- 7 The provision and maintenance of plant, equipment and facilities.

The Health and Safety Policy and Procedures are reviewed annually and communicated to all employees and interested parties.
